Being a graduate and skilled React developer, I have developed some projects and working on ERP and REMS modules as an Oracle APEX developer. I am excited to leverage my expertise in frontend development. With proficiency in React, I am eager to join a dynamic team where I can contribute my technical skills to develop user-friendly interfaces, optimize performance, and enhance the overall user experience. My objective is to collaborate with like-minded professionals, where I can continuously learn and grow while making meaningful contributions to projects that make a difference.

Work Experience:

Oracle Apex & Jaspersoft Studio Reports Developer

2023 - Present

Multi-Techo ERP Integrated Solutions

- Develop multiple customized modules of ERP for clients using Oracle Apex.
- Develop Real Estate Management System (REMS) to streamline and efficiently organize the operations related to real estate. Hands on experience in SQL and PL/SQL.
- Resolving errors and optimizing performance to ensure efficient system operations.
- Generating new report templates, enhance existing ones, manage and maintains the reports.
